Objective

Developer with a strong foundation in HTML, CSS, and React.js, motivated by solving problems and creating smooth user experiences. Seeking an opportunity to apply my skills and grow into a full-stack developer.

Skills

- **Programming:** JavaScript , HTML, CSS
- **Frameworks:** React.js
- **Tools:** Git, GitHub, VS Code
- **Concepts:** Responsive Web Design, DOM Manipulation, Fetch API, REST APIs

Projects

Image Gallery Application

React.js, CSS

- Designed and developed a responsive gallery with image search and filtering.
- Utilized reusable React components and state management for scalability.

Currency Converter

JavaScript, HTML, CSS

- Built a real-time currency converter using Fetch API to integrate live exchange rates.
- Implemented input validation and responsive design for cross-device compatibility.

Tic-Tac-Toe Game

JavaScript, HTML, CSS

- Created a browser-based interactive game with game state management and event handling.
- Applied modular JavaScript coding practices to improve maintainability.

Education

Bachelor of Arts (B.A.)

City, India

Your College Name — Year of Graduation
